A Leader In The Industry And A Winner By Quality

Jiangxi Naipu Mining Machinery and New Materials CO., LTD is a high-tech enterprise, manufacturing large-sized mining equipment, slurry pumps and rubber spares. With its headquarter located in Shangrao Economic Development Zone, Jiangxi, it runs a modernized and garden-like factory with a footprint of 35 thousand square meters, owns a 300-member workforce, in which nearly 100 members are technical personnel, yields an annual output value of about 150-million yuan, owns more than 80 machines as of 3800-ton, 2300-ton vacuum type platen vulcanizing presses and advanced vertical machining centers, and is equipped with advanced inspection and testing facilities in complete sets in the rubber product industry. We are accredited to ISO-9001:2008 international quality management system certificate, and ISO-14000:2004 international environment management system certificate. We have a patent of invention and more than ten new practical patents. Naipu Company is a high-and-new-tech enterprise of Jiangxi province.

Naipu owns a modernized management mechanism and a sound quality guarantee system, first-class research and development ability, advanced mould design and vulcanizing process with well-educated staff and high quality equipment. Products use imported natural rubber as the main raw material.

Our main products are series NZJ slurry pumps and wetted parts; rubber liners in different specifications for ball mills, AG mills and SAG mills; trommel screens, feed hoppers, discharge assemblies, grates, trunnion and cylinder liners; NSH series rubber screen panels and screen plates; hydrocyclones in different sizes of Φ838, Φ660, Φ500, Φ350, Φ250 and Φ150; impellers and stators for BS-K, KYF and XJC flotation machines. Here large-sized slurry pumps as of 750NZJ, 550NZJ and 450NZJ and abrasion resistant rubber wetted parts independently developed and manufactured by Naipu are recognized as the high-tech and State energy-saving products that have filled up a void in the nation.

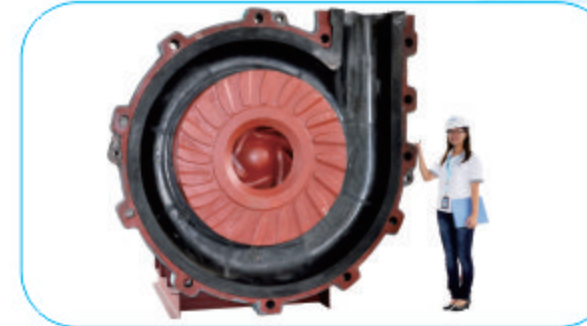

We will persist in technique innovation, management innovation and service innovation, persist in the management idea of a leader in the industry and a winner by quality. We are trying our best to serve our customers of the old or new and manufacture new and effective environmental-friendly mining equipment.

Naipu Corporate Culture

- 1) Business Vision: A Leader In The Industry And A Winner By Quality
- 2) Business Principle: High Quality, High Technology, High Standard, High Efficiency
- 3) Enterprise Attitude: Honest, Responsibility, Regulation, Efficiency
- 4) Enterprise Spirits: With One Heart, Jointly Make Creation, Make Progress, Share Together
- 5) Enterprise Aim: An Enterprise With Durability, A Range Of Products Globally Popularized
- 6) Enterprise Slogan: The Staff And Enterprise Improve 1% Per Day

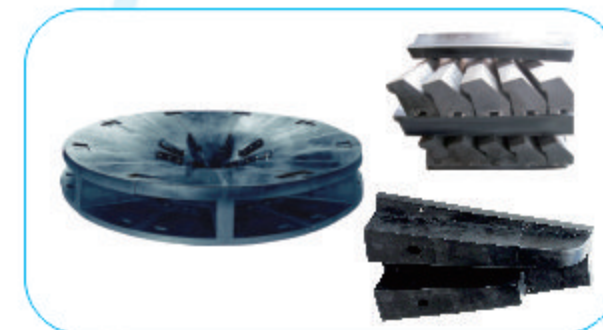

Products of Naipu Company

NZJ Series Rubber-lined Slurry Pumps

Impellers and Stators for Flotation Machines

Rubber Liners for Grinding Mills

Rubber Panels And Plates for NSH Series Screening Equipment

Hydrocyclones and Rubber Spares

Abrasion and Corrosion Resistant SPUA Coating, Corrosion-resistant Rubber Lining, Rubber-lined Steel Pipes

Global Cooperation Jointly Shared Future
